Quality

Quality Assurance

Tyndall National Institute is ISO certified to ISO 9001 since 1998. We are proud of the certificates and accreditations we hold; they not only benefit the company and our employees, but most importantly, our customers. You can trust in Tyndall National Institute that we adhere to the very latest standards, consistently monitor and improve our performance to maximise the sustainability of our research, development and innovation activities in the field of information communication and technology (ICT).

We have a secure electronic based software program which allows us to manage our Quality Management System requirements. This ensures consistency and traceability of our data and allow us to monitor and analysis our results to encourage innovation, learning and creativity.

ISO 9001:2015 – Quality Management

ISO 9001:2015 is the internationally recognised standard for quality management of businesses. Our certification reassures our customers that Tyndall National Institute has a robust and fully implemented Quality Management system that emphasizes meeting the requirements of our customers, and that drives continuous improvement throughout our company.

ISO 17025:2017 – Competence of testing and calibration laboratories

ISO 17025:2017 specifies the general requirements for the competence to carry out tests and/or calibrations, including sampling. It covers testing and calibration performed using standard methods, non-standard methods, and laboratory-developed methods. Our accreditation reassures our customers that we are technically competent and operate to consistently produce accurate, traceable and dependable test and calibration data.

Other Accreditations

ISO 50001:2011 is an International Standard that enables Tyndall to establish the systems and processes necessary to improve our energy performance, including energy efficiency, use, and consumption. Tyndall is committed to continuous energy performance improvement to enhance the environment in which we work and carry out research.
